- Apex
- SOQL
- Lightning Web Components
- Visualforce

Technical Skills
- Python
- JavaScript
- HTML
- Tableau
- Google Sheets

Tools
- Salesforce Sandbox
- Jira
- Confluence
- Slack
- VS Code
- Git

Salesforce Experience

Salesforce CRM Configuration – Autocar Sales
Role: Salesforce Administrator / Business Analyst
Environment: Salesforce Sandbox, Jira, Confluence, Slack
Responsibilities
- Configured Salesforce to align with sales business processes
- Implemented validation rules, approval processes, and workflow automation
- Designed security model using roles and profiles
- Built reports and dashboards for sales insights
- Collaborated with team members to map campaign-to-customer lifecycle

Impact
Improved visibility of sales data and streamlined CRM workflows.

Salesforce Platform Developer Project
Role: Team Lead / Platform Developer
Work
• Designed custom objects and relationships
• Built automation using Flow and Apex
• Developed Lightning Web Components
• Implemented role-based access control
• Managed project tasks and coordination
Result
Automated manual processes and improved operational efficiency.

AI & Software Projects
AI Knowledge Assistant
• Built intelligent question-answer system using Python
• Implemented vector search using embeddings
• Integrated LLM model for responses
Tech Stack
Python
Vector Database
Sentence Transformers

AI Chatbot Application
• Developed conversational chatbot application
• Implemented document-based knowledge retrieval
• Built simple interface for interaction
Tools
Python
Streamlit
LLM

AI Knowledge Platform for Education – NCERT Smart Learning App
Description
Developed an AI-powered educational assistant that enables students to ask questions from NCERT textbooks and receive contextual explanations using AI models and semantic search.
Key Features
• Natural language question answering
• NCERT document search using embeddings
• AI generates contextual answers
• Document-based knowledge retrieval
• Automated explanation of concepts
• Interactive chatbot-style interface

Technology Used
Python
Groq
Render
Vector Database
LLM Integration (llama-3.3-70b-versatile)
GitHub

Impact
Designed to simplify learning and make NCERT study material interactive and searchable.

Salesforce Achievements
Trailhead Rank: **Double Star Ranger**
Badges: **200+**
Agentblazer Legend 2026
